INTRODUCTION

Star LED Solution began its journey in 2015 as an LED light Manufacturer company, built entirely from the ground up. What started with a simple idea and minimal resources has grown into a dynamic tech enterprise. By 2020, we had expanded our Supply product line to include over 100+ products, and established our own company, for supply and installation, marking a major milestone in our growth. Our turning point came in Daltenganj, when we secured our first government contract – the Supply and installation of Street lights and High Mast Lights under Medini nagar Municipal Corporation. Since then, we have successfully executed more than 200+ government projects across India especially in Jharkhand. Today, Star Led Solution stands as a trusted partner in Government, Central and Psu, delivering High quality, innovation, and reliability in every project we undertake.

OUR VISION

Our mission is to build trust relationship with our client, till now we have successfully served more than 100 departments and next target is to serve more than 300 departments with turnover of more than 200 Crore.

OUR MISSION

To drive meaningful service provide technology, design, and smart innovated ideas provide to change participation into a unified development approach.
